Job offer for Students

In the field of Renewable Energy

We offer opportunities for students, which look out for a side job or a practical placement in the field of Renewable Energies and Sustainability.

Company description:

The enterprise German ProfEC GmbH was established in May 2007 with the goal to offer result-oriented services within the field of sustainable power generation, energy efficiency and environmental protection. The company has offices and representations in several countries of the world, among which in Peru, Honduras, Mexico and Germany (between Meppen and Lingen). German ProfEC is specialized in international project consulting, planning and realization of renewable energy projects and sustainable development projects. Our core activities are

- ✓ Consultations
- ✓ Project analyses
- ✓ Project management
- ✓ Project planning and development
- ✓ Studies and Prognoses
- ✓ Education events
- ✓ Financing concepts and investor match making

Our target markets are developing and threshold countries. Highest maxim is, apart from climatic and environmental protection, connecting economics, social interests and ecology, which manifests itself in the term of Sustainability.

If you

are an engineer student for renewable energy, industrial engineering, energy engineering or mechanical engineering, showing individual initiative and having analytical and English language skills (and maybe Spanish) as well as pronounced interest in renewable energies and sustainability, then you are correct with us.

With immediate effect, we look for enthusiastic and ambitious students that support us in the following fields of our current activities:

- General support in development of renewable energy projects in Latin America
- Steps within wind energy project planning
- Steps within biomass to energy project planning
